## **Barcoding, Inc. Releases Enterprise Mobility Services to Enhance Customer Satisfaction**

*Leading system integrator's new professional services help customers migrate through changes in mobile device management, touch TE and platform evaluations*

**BALTIMORE** – Jan. 31, 2017 – [Barcoding, Inc.](#), the leader in supply chain efficiency, accuracy, and connectivity, announces the release of its new Enterprise Mobility Services. Built on years of experience, Barcoding's new professional services will enhance customer satisfaction and provide peace of mind during OS migrations, platform upgrades and enterprise deployments.

Barcoding's Enterprise Mobility Services deliver boutique solutions individually designed for enterprise customers. The services provide planning, management, and support of complex migrations, upgrades or deployments. Services include Enterprise Mobility Management (EMM) Services, Platform Evaluations, Migration Services (including touch TE, legacy hardware upgrades and infrastructure change management) and Deployment Services (like project readiness, contingency planning and inventory control).

"Our new Enterprise Mobility Services have been developed as a way to enhance the overall service and support we're providing to our clients," said Martin Jack, CTO, Barcoding, Inc. "We put our wealth of experience to work for our customers to make sure that their business is efficient, accurate, and connected. These services give our customers a trusted partner who can implement the positive changes they need to stay competitive and provide a great user experience."

Barcoding's services will be backed by ongoing support and strategy initiatives including:

- Reviewing pitfalls and challenges of existing solutions and providing alternative solutions.
- Discussing goals and setting metrics for new platforms and/or solutions being implemented.
- Training and communication plans to ensure staff adoption and solution success.
- Providing pre-, during and post-deployment support.
